

CONSULTING ENGINEERS

Let us help you invest in sustainable infrastructure

Company Profile
2025/26

Profile of Directors

July Mushwana

is a Professional Civil Engineering Technologist with over 27 years of experience in the Construction Industry specializing in Geometric and Pavement design of roads, Bulk Water and Sewer designs, Water and Sewer Reticulation designs.

Takalani Malaka

is a Professional Civil Engineering Technologist with over 20 years of experience in the Construction Industry specializing in Geometric and Pavement design of roads, Bulk Water and Sewer designs, Water and Sewer Reticulation designs.

Overview

2MC Consulting Engineers (Pty) Ltd is a South African based professional services company that is 100% black owned. We operate in the infrastructure and development market, a multi-disciplinary firm specializing in Civil & Structural Engineering, Electrical Engineering, Mechanical Engineering, Quantity Surveying, Architecture and Project Management services.

Backed by more than 15 years of experience in multidisciplinary infrastructure projects, the 2MC Consulting team has a strong project management and engineering knowledge base and the technical expertise necessary to undertake projects from inception through their various stages to completion. This knowledge base enhances our capacity to deliver on projects of a varying nature.

2MC Consulting was founded in June 2010 and over the years our network has grown from one office to the current nine offices situated in all provinces of South Africa. From these offices, we have over the years been able to deliver on projects in the Free State, Gauteng, Mpumalanga, KwaZulu Natal, Eastern Cape, North-West and Limpopo Provinces, South Africa.

Vision

An African world-class provider of Innovative solutions.

Mission

To provide sustainable socioeconomic development and business solutions through:

- Providing a holistic approach to infrastructure development.
- Attracting, training and retention of highly skilled human resources.
- Applying innovative project management approaches in development facilitation.
- Continuous research for systems and solutions geared at supporting delivery in our business environment.
- Provision of responsive management solutions.

Mission Statement

Business Values

To ensure that a coherent and shared organizational culture is aligned to the strategic vision, mission and objectives of company, 2MC Consulting embraces the following business values:

- Professionalism: We conduct our business beyond acceptable standards with integrity and courtesy.
- Efficiency: We always deliver quality, high value services and projects on time.
- Transparency: We are flexible and open to communicating with colleagues and clients.
- Entrepreneurship: We embrace innovation to create growth.
- Responsiveness: We account for all work done and are proactive in delivering services to clients.

Strategic Objectives

- Maintain a track record efficient delivery services,
- Promote and develop team effort,
- Retain results driven and performance-based culture,
- Build sustainable, reliable and profitable relationships with clients, suppliers and associates.

Service Offerings

- **Delivery Capacity**

Over 100 kilometers of roads, most of the secondary roads being upgrading from gravel to tar road projects. We have dedicated water services and sanitation engineering departments with the capability to execute large projects from feasibility to implementation. This includes a multi-disciplinary team of Civil & Structural Engineers, Electrical Engineers, Mechanical Engineers, QS, Architects who have the capacity to conduct feasibility studies and design of multi-disciplinary projects

To date, we have designed and implemented in excess of 10000 meters of water reticulation and sewer lines. We have also been engaged in the following projects; refurbishment of dilapidated government buildings, water demand studies, wastewater treatment plants, landfill designs, shopping malls and the design of sports facilities.

Within our Multi-Disciplinary Engineering team, we have qualified staff registered with ECSA, SAICE, SACAP, SACQSP, PMP and SACPCMP) while the company itself is registered with CESA.

Multi-Disciplinary Infrastructure Development

Alliance Extension 1 Township Development – Gauteng Province, South Africa.

Client: City of Ekurhuleni

2MC Consulting Engineers was appointed by City of Ekurhuleni as a multi-disciplinary professional service provider for the development of Alliance Ext 1.

The extent of works entailed the construction and installation of civil engineering infrastructure services (Water & Sewer Recycled, Bulk water & sewer lines and Roads & Stormwater) for 2920 stands. The Project was undertaken from inception to completion stage with a budget of R180m.

Redevelopment of Daveyton Hostels - Gauteng Province, South Africa.

Client: City of Ekurhuleni

2MC Consulting Engineers was appointed by City of Ekurhuleni as a multi-disciplinary professional service provider for the planning, design and documentation (stage 1-4) of the redevelopment of Daveyton Hostels. Projects Undertaken from Inception to completion. Current expenditure is ±R30m.

Multi-Disciplinary Water & Sanitation

Sewer lines upgrading- Emfuleni- Gauteng Province, South Africa

Client: Emfuleni local municipality

Upgrading of the sewer lines within the Emfuleni Local Municipality area of Sharpville township. Project undertaken from Inception to completion stage. The project budget was R6m

Sewer pipes replacement- Parys town Free State Province, South Africa. Client: Ngwathe local municipality

Sewer pipes replacement project of clay pipes within the Ngwathe Local Municipality. Project undertaken from Inception to Completion. Project budget was R0.85m.

Water demand investigation- Emfuleni Gauteng Province, South Africa

Client: Emfuleni local municipality

Water demand investigation within the Emfuleni Local Municipality jurisdiction. The investigation was to determine future use, all the resource options, and to develop a strategy to ensure future water supplies to all. The project budget was R20m.

Multi-Disciplinary Building & Structural Projects

Springs: Development of Blue Crane Mall Client: Indumiso - Springs, Gauteng Province, South Africa

Construction of Blue Crane Mall which included a Stormwater Management Plan, Topographical survey of the area, Roads and Geometric Designs, Storm Water and Catchment designs, Water Reculcation Designs, Sewer Reculcation Designs, Construction monitoring. The project was undertaken from Inception to Design Stage. The project budget was R370m.

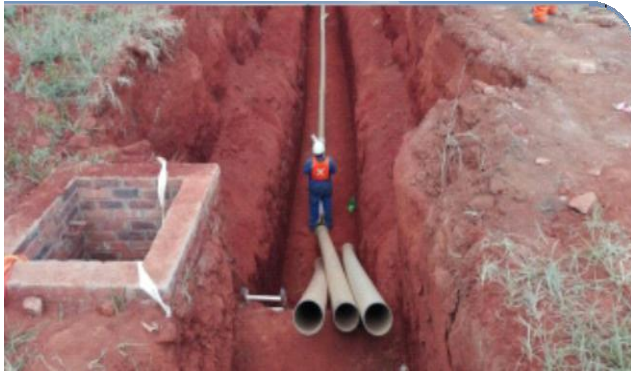

Mangrove: Mangrove Shopping Centre: Client: KHPJ Properties - Limpopo Province, South Africa

Planning, Design and Implementation of the Mangrove Shopping Centre. The works included Stormwater Management Plan, Topographical survey of the area, Roads and Geometric Designs, Storm Water and Catchment designs, Water Reculcation Designs, Sewer Reculcation Designs, Construction monitoring. The project was undertaken from Inception to Design Stage. The project budget was R85m.

2MC

Multi-Disciplinary Building & Structural Projects

Sports and recreation: Maboloka Sports Facility Client: Madibeng local municipality - Bojanala district- Northwest Province- South Africa

Construction of Maboloka Sports facility which included a Soccer Pitch, Multi-Purpose Courts of Netball, Volleyball and Basketball, Construction of Ablution Facilities, Guardhouse and Parking areas. The project was undertaken from Inception to Completion Stage. The project budget was R10.8m.

Traffic Department: Malamulele Traffic Department Client: Collins Chabane Local Municipality - Limpopo Province, South Africa

Planning, Design and Implementation of the refurbishment of the traffic department. The refurbishment included the construction of additional offices to existing building, a new guardhouse, alteration to Vehicle testing station, construction of learner driving testing area, storm water drainage structure and construction of elevated water storage tank. The Project budget was R19m.

Multi-Disciplinary Building & Structural Projects

Sports and Recreation: Damsonville sports facility

Client: Madibeng local municipality - Bojanala district- Northwest Province- South Africa

Upgrading of a Sports facility which included a Soccer Pitch, Mul-Purpose Courts of Netball, Volleyball and Basketball, Construcon of Abluon Facilities, Guardhouse and Parking areas. The project was undertaken from Incepon to Compleon Stage. The project budget was R7.6m.

Community Hall: Goudplaas Community hall. Client: Greater Letaba Municiplaity- Mopani district- Limpopo Province, South Africa

Planning, Design and Implementaon of a community hall facility. Project undertaken from Incepon and to compleon. The scope entailed the construcon of a brand-new community hall complete with all amenies. The Project budget was around R7m.

Construcon of new school Manthe Primary School Client: Anglo American planum- Northwest Province- South Africa

Planning, design and implementaon of new Manthe Primary School. Project Undertaken from incepon to compleon. Project budget was R23m.

Multi-Disciplinary Building & Structural Projects

Medium to high Density residenal: Devland ext.36 (Soweto)

Client: Social Housing Development (sub-consulng)

The Devland Ext. 36 Development is done in collaboraon with Instran's Developers on behalf of the Social Housing Developments. It will comprise of 870 social housing units consisng of bachelor, one, two and three bedroom apartments. The units will be developed as three storey walk-ups and delivered in two phases.

Medium to high density residenal: Flamwood ext 24 (Matlosana)

Client: Social Housing Development (Sub-consulng)

The Flamwood Ext. 24 Development is done in collaboraon with Instran's Developers on behalf of the Social Housing Developments. and is located in the Matlosana City Municipality. The project comprises that 1168 units ranging from bachelor to one, two and three bedroom apartments which have been designed as three storey walk-ups...

Upgrading Of Road P66/1 (Kgomo-Kgomo) To P65/1, Bridge (22m) As Well As Appurtenant Works.

Client: Department Of Public Works And Roads – North West Province.

The Department of Public Works appointed 2MC Consulting Engineers as the Principal Consultant & Agent for the designs and construction of the bridge upgrades in Kgomo-Kgomo.

Appointment As Consultant For the Construction Of A Bridge Along Or Tambo Road.

Client: Msukaligwa Local Municipality

Mugalakwena LM appointed 2MC Consulting Engineers as the Principal Consultant & Agent for the designs and construction of the bridge along OR Tambo Road.

Multi-Disciplinary Bridge Projects

Upgrade Of Main Road P379 From Km0.000 To KM12.712 Including A Bridge Construction On Km7.389 In The Uthukela District Under The Ladysmith Region.

Client: Department Of Transport KZN

The Department of Transport KZN) appointed 2MC Consulting Engineers to render Civil Engineering services for the design and construction of a bridge and upgrade of the main road in Uthukela District.

Design Of The Rhodesfield – Or Tambo International Airport Link Roads From Stage 1-3. Whereas Roads & Storm Water Recommended The Detail Designs For The Roads For Approval On The 15 February 2019, The Designs For The Bridges Across The Albertina Sisulu Highway, The Pretoria Road And Into ACSA Precinct Were Referred To Sanral

Client: City of Ekurhuleni

City of Ekurhuleni appointed 2MC Consulting Engineers to render Civil Engineering services for the design and construction of a bridge and upgrade of the roads as defined above.

Multi-Disciplinary Bridge Projects

Appointment Of A Service Provider To Undertake Access Road Design Of P484 Including Road Bridge (+/-45m) At Km3.20-km3.3) And Monitoring Of Umtubatuba CBD Internal Roads

Client: Department Of Co-operative Governance And Traditional Affairs (Cogta)

COGTA appointed 2MC Consulting Engineers as the Principal Consultant & Agent for the designs and construction monitoring of the bridge and internal roads in Umtubatuba.

Appointment As Professional Engineering Service Provider For Design, Supervision & Monitoring For Construction Of Nonkala Bridge

Client: Dr. A.B Xuma Local Municipality

Dr. A.B Xuma LM appointed 2MC Consulting Engineers as the Principal Consultant & Agent for the designs and construction monitoring of Nonkala Bridge.

Multi-Disciplinary Bridge Projects

Appointment As Professional Engineering Service Provider For Design, Supervision & Monitoring For Construction Of Ngqokokweni Bridge

Client: Dr. A.B Xuma Local Municipality

Dr. A.B Xuma LM appointed 2MC Consulting Engineers as the Principal Consultant & Agent for the designs and Construction Monitoring of the Ngqokokweni Bridge.

Service offering: Project management

Our approach in delivery of projects is based on the following key stages of project development and management;

- Project initiation
- Project conception and design (including conclusion of project plan)
- Contracting and/or procurement
- Resource mobilization and project implementation (monitoring and evaluation is integrated in approach)
- Project closeout

We strongly believe that being a multidisciplinary firm affords us an advantage to draw lessons learnt therein to increase our delivery capacity. Our strong engineering background drives us to always focus on efficiency in resource (including me) utilization. 2MC Consulting has the required experience to provide solutions in project management.

Project Management Procedures and Quality Control

2MC Consulting has the required Project Management experience in provision of infrastructure, managing complex projects of varying magnitude. Over the years, we have valuable experience in providing services of delivery of various facilities, roads and storm water infrastructure in aid of our clients' investment plan.
